

Budapest Pride 2025, Hungary 28th June

June is pride month in the USA and some other countries to commemorate the anniversary of 1969 [Stonewall riots](#). The riots were a series of spontaneous protests by the LGBTQ+ community against a police raid on the [Stonewall Inn](#), in New York.

Pride Month starts with a bang with **23** prides on the 1st of the

month alone and in the whole of June we have **505** prides listed.

We must not be complacent about LGB rights. Here in the UK, UK Reform will not allow any LGBTQ+ flags being flown from public buildings under their control. Whilst in the USA things are a lot worse under Trump who is erasing protections for LGBTQ people. Then there are some Eastern

European countries like Hungary see Budapest pride (above).

We also feature [Sheridan's story](#) of how he tackled the problems of an unsustainable, hedonistic lifestyle on the gay scene resulting in depression. By training as an acupuncture therapist to help others and of course himself.
