We are now into our 5<sup>th</sup> year of doing PinkUK's newsletter and been through various formats.

With the UK Supreme Court rules legal definition of a woman and men is based on biological sex making the headlines in the LGBTQ community this week. With strong views on all sides as this is a very emotive subject. I personally don't think Transgender issues

should be linked to LGB community as being Lesbian, Gay or Bisexual is a sexuality while, Transgender is a gender issue.

We also have an article [Spring Awakening: Sexual Freedom is here](#) from our friends at esmale.
